Permian Tank is a leading manufacturer of API oil storage tanks. Permian Tank has built a network of manufacturing plants and distribution yards in Odessa, TX; El Reno, OK; Kilgore, TX; Giddings, TX; Canadian, TX and Troy, TX. This network guarantees service and an availability of parts and accessories, regardless of location.

Standard barrel capacity ranges from 100 to 1,000 barrels. Special tank sizes and/or bottom modifications are available.

Strict quality control assures that each tank is manufactured with A-36 (commercial quality) 3/16 and 1/4 inch steel. Tanks are interior and exterior welded to API specifications and pressure tested.

Permian Tank maintains a fleet of knuckle boom-equipped trucks and gin trucks that stands ready to make on-time deliveries with no surprises from third-party carriers to jeopardize commitments made to our clients.

Across the country or even around the world, production and shipping are constantly monitored until delivery is made to the client's facility.
